

Do You Want to Extend the Life of Your iSeries Applications?

Dear Applications Manager,

Do you desire upgraded business applications, but don't have the resources or budget to accomplish effective upgrades? Do you wonder where the iSeries platform is headed, but don't have the time or money to attend costly conferences?

Application renewal is not simply a technology challenge but a business imperative. By extending the business life of current IT assets, application renewal has the potential to increase a company's agility, decrease costs and reduce risks – solid support for the journey toward high performance and customer satisfaction. And, that helps retain your core applications on your current platform!

Now You Can Easily Stay Informed of Your Options and Industry Trends.

CompuTek Consulting, Inc. is a successful software and project management consulting group helping businesses and applications managers all over the country, just like you, for the last 20 years. We specialize in supporting and renewing systems on the IBM iSeries platform, and are current on technologies and events affecting our industry. We understand your specific challenges and are here to help you make informed decisions.
